

【For Immediate Release】

A Baguio Subsidiary Wins EPD Deal for Bioconversion of Chicken Waste to Animal Feed and Fertilizer

(3rd January 2022 — Hong Kong) Baguio Green Group Limited (“**Baguio**” or the “**Company**”, Stock Code: 1397.HK) is pleased to announce that a Baguio subsidiary, Organic Tech Limited (“**Organic Tech**”) (a joint venture between Baguio and Cooh Science Limited) has been awarded a contract by Hong Kong’s Environmental Protection Department (“EPD”) for bioconversion of chicken waste to animal feed and fertilizer by detritivores. This EPD contract is first ever in Hong Kong.

In this EDP contract (valued at HK\$27.66 million), Organic Tech utilizes *Hermetia illucens* (“Black Soldier Fly”) to convert chicken manure to animal feed and organic fertilizer. Organic Tech will set up a 35,000 sq. ft Chicken Farm Waste Treatment Plant at EcoPark to take in 10 tonnes of chicken manure and output 5 tonnes of organic products per day including 1.5 tonnes of mature larvae (animal feed) and 3.5 tonnes of insect frass (organic fertilizer). The facility is expected to begin operations in September 2022, with the contract running until August 2023.

Mr. Ng Wing Hong, Chairman of Baguio Green Group commented, “Baguio is pleased to introduce this innovative solution in Hong Kong to resolve chicken waste problem. Bioconversion of chicken manure into valuable animal feed and fertilizer for agriculture using ‘Black Soldier Fly’ is cost-efficient and environmentally friendly. It is a great step forward in leveraging biotechnology to resolve environmental problem. With the first chicken farm organic waste treatment contract awarded by EPD in Hong Kong, Baguio believes that nearly 1/3 of organic waste from chicken farms in Hong Kong will be handled. This innovative solution could be extended to resolve other environmental issues e.g. food waste, etc. in the future.”

~ END ~

Introduction of Baguio Green Group Limited

Baguio Green Group (Stock Code : 1397.HK) has been committed to creating a green and clean environment since 1980. To date, Baguio has become a professional comprehensive environmental service provider, including professional cleaning, recycling, waste management and collection, horticulture and landscaping, and integrated pest management. Baguio implements the principles of sustainable development and environmental protection, as well as socially responsible enterprises, and actively assists in building a greener, healthier and better environment.
