## Baguio is awarded the 2022 Hong Kong Top Service Brand

【4 April 2023 – Hong Kong】 Baguio Green Group Limited (“Baguio”, Stock code: 01397.HK) has been honored with the “2022 Hong Kong Top Service Brand” award by The Hong Kong Brand Development Council. The “Hong Kong Top Service Brand Awards” aims to give recognition to outstanding service brands established by Hong Kong companies, to encourage local enterprises to strive for excellence, to promote Hong Kong services, and to enhance the profile of Hong Kong industries both locally and internationally.

Ms. Phyllis Ng, CEO of Baguio, said: “It is our honor to be elected as a “Hong Kong Top Service Brand” and we thank the Hong Kong Brand Development Council for recognizing our efforts over the years. Baguio has been rooted in Hong Kong for 42 years and has always adhered to the core value of “Customer First, Excellence, Integrity, Value Creation, and Sustainability”, creating a better environment for the public. In the future, we will strive to provide professional integrated environmental services, creating a cleaner, greener, and more sustainable environment for Hong Kong.”

Baguio has been growing simultaneously with Hong Kong, providing comprehensive integrated environmental services in line with the needs of social development. Starting with the “Keeping Hong Kong Clean Campaign” in the 1980s, the “Green Hong Kong Campaign” launched in 1993, and the epidemic in 2003 and 2019, Baguio’s professional services of cleaning, horticulture and landscaping, and pest management services have always been steadfast, to create a “green and clean” environment for citizens. In the past decade, in order to promote the sustainability of Hong Kong, Baguio has actively expanded the waste management and recycling business to the entire recycling industrial chain, adhering to the concept of “local collection, local circulation, and local use”. Baguio currently provides collection, processing, and recycling services for waste and recyclables at over 5,000 service points in Hong Kong, and has established or jointly operated six local recycling facilities, turning waste into resources.

To optimize services and enhance productivity, Baguio has applied various innovative and digital technologies in its operations, such as mobile applications, enterprise resource planning (ERP), geographic information systems (GIS), cloud platforms, near-infrared sorting technology, biotechnology, etc., enhancing competitiveness. In addition, we also adopt an integrated management system (IMS) covering “quality”, “environment”, and “occupational safety”, and have obtained ISO9001, ISO14001, and ISO45001 certifications to ensure our services adhere to the principles of environmental protection, social responsibility, and corporate governance to provide stable and quality services.
